

## Data Management Plan

Work conducted under this proposal may produce new mathematical data. If so, it will be made freely available to the public through the  $L$ -function and Modular Form Database web site (LMFDB), <http://www.lmfdb.org>. The site provides a user-friendly interface for accessing data.

All data for this web site is regularly backed up to secondary hard drives. Moreover, we plan to open a mirror of the site by the end of 2014 which will have a copy of all data from the LMFDB, effectively providing a second backup of the data.
